

After Moderna, Pain typically occurs before Asthenia.

gold: supported, k = 18 of n = 22, p = 0.002

1 WHICH REPORTS COUNT?

983 Moderna → 30 with both → n = 22, k = 18

2 EHRSQL-C: ONE QUERY

"I count a report only if Pain comes first."

n = 18, k = 18 → p < 0.0001 → supported

N = K!

⚠ **Right verdict, wrong evidence:** the 4 Asthenia-first reports vanish, so n = k.

3 ART: ARTICULATE, RETRIEVE, TEST

"Count reports with both at different stages; test against 0.5."

n = 22, k = 18 → p = 0.002 → supported

Right verdict on the gold evidence: all 22 eligible reports, nothing else.
